

Oxford Lakes Dental Care Brite for Life Program

The **Brite for Life** Program is free teeth bleaching for life! It is offered as a courtesy to the extraordinary patients at **Oxford Lakes Dental Care**. It is intended as a reward for individuals who take their dental health care seriously and as an incentive for those who need a little “nudge”. Maintaining regular recommended hygiene care and completing and maintaining necessary dental treatment is the cornerstone to a healthy mouth and smile. It is a fact that patients who follow our recommended hygiene schedule and have our recommended necessary dental treatment done, spend far less money for their dental care, on average, than patients who don’t. At **Oxford Lakes Dental Care** we feel that these patients deserve something special. That is what the **Brite for Life** program is about.

Brite for Life gives our best patients **Free** professional bleaching; custom made bleaching trays and whitening gel. Once a year, one additional whitening gel kit for **Life** is included! In office bleaching is offered as an option for 50% off. This will include take home trays, take home whitening gel and one additional whitening gel kit once a year for **Life**!
